

LEAD GEN · B2B

Inbound Form AI Qualifier

Every form submit goes through Claude before it touches your CRM. Junk gets tagged out. Real leads land in Slack with a ready-to-send reply.

THE PROBLEM

Half your inbound is a waste of a salesperson's hour.

You ran ads, you pay for SEO, the form fires 30-80 times a month. Half is students, half is competitors, a chunk is gigs you wouldn't take for free. Your AE reads each one, gets pulled into 4 LinkedIn tabs, and the actual buyer waits 3 hours for a reply. By then they pinged 3 competitors. The fix is not a longer form — that just drops total volume. The fix is reading every submit in 6 seconds with an LLM.

\$15K

AE HOURS WASTED / YEAR

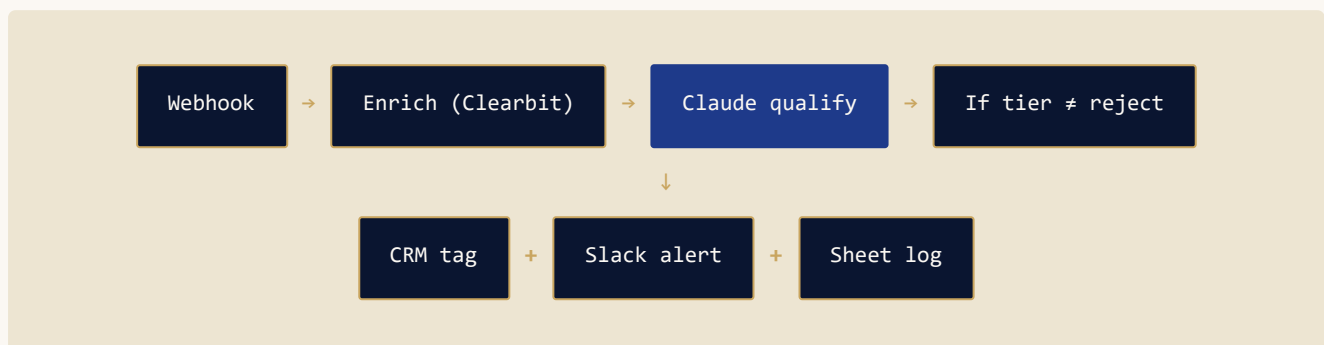

55%

FORM FILLS THAT ARE JUNK

Built for

- B2B SaaS with a 'Book a demo' or 'Contact sales' form
- Agencies running paid traffic to a quote / audit form
- Service businesses (clinic, consultant, legal) where form quality varies wildly

The flow

BUILD IT

Stack & setup

Tech stack

LAYER	TOOL	COST/MO
Orchestration	n8n (self-host / cloud)	\$6-20
Form	Webflow / Typeform / native webhook	\$0-25
Enrichment	Clearbit or Apollo (optional)	\$0-99
LLM qualifier	Claude Sonnet 4.6	\$3-10
CRM + alerts	HubSpot/Pipedrive + Slack + Sheets	\$0
Total	—	\$10-155

Before you import

- n8n instance (DO droplet \$6/mo or n8n.cloud)
- Form tool that supports webhooks (Typeform, Webflow, native HTML POST all work)
- Anthropic API key with \$10+ credit
- CRM with API access (HubSpot free tier works, Pipedrive, Close, etc.)
- Slack channel #inbound-leads + bot token
- Optional: Clearbit/Apollo key for company enrichment

Setup (30-60 min if n8n already running, 90 min from zero)

1. Spin up n8n: `docker run -d -p 5678:5678 n8nio/n8n` or use n8n.cloud
2. Create webhook node in n8n → copy the production URL
3. Paste that URL into your form tool's webhook integration (Typeform → Connect → Webhooks)
4. Add credentials in n8n: Anthropic API, your CRM OAuth, Slack OAuth, Google Sheets
5. Workflows → Import from Clipboard → paste JSON from page 4
6. Edit the Claude prompt with YOUR qualifying criteria (budget band, geo, industry)
7. Submit a test form entry → verify Slack message + CRM contact appears → activate workflow

COPY + PASTE

n8n workflow JSON

Copy from GitHub →

One click. Opens raw file with native copy button.
