Abandoned Cart → WA Voice Note

Cart drops trigger an ElevenLabs voice note in your founder's voice, sent on WhatsApp 12 min after abandon. Recovers 18-26% vs 4-7% email.

THE PROBLEM

Your abandoned-cart email gets ignored.

Shopify says 69% of carts abandon. Your Klaviyo flow recovers 4-7% of those, on a good week. The reason is simple: people open email when they're done shopping, not when they're hot. WhatsApp opens in under 90 seconds. A 22-second voice note in your founder's voice, mentioning the exact product they left behind, hits a different nerve than 'Forgot something?' subject lines.

STORE**22s**

VOICE NOTE LENGTH SWEET SPOT

Built for

- Shopify / WooCommerce stores doing \$200K-\$5M/yr
- DTC brands with phone capture at checkout
- AOV \$40+ where 1-1 outreach pays back

The flow

BUILD IT

Stack & setup

Tech stack

LAYER	TOOL	COST/MO
Orchestration	n8n (self-host / cloud)	\$6-20
Cart events	Shopify webhooks	\$0
Voice clone	ElevenLabs Starter	\$5
WA delivery	Twilio WhatsApp Business	\$0.005/msg
Audio host	AWS S3 + CloudFront	\$1-3
Total	—	\$15-35

Before you import

- Shopify store with checkout phone capture turned on (or WooCommerce + WA field)
- Twilio account + WhatsApp sender approved (sandbox fine for testing)
- ElevenLabs account + 1 cloned voice (founder reads 90s sample)
- AWS S3 bucket with public-read on /voice-notes/ prefix
- n8n instance running
- Google Sheet: cart_abandon_log with columns: ts, customer_phone, customer_name, product_title, cart_value, audio_url, wa_sid, status

Setup (60-90 min, plus 24-72h Twilio WA approval wait)

1. Shopify Admin → Settings → Notifications → Webhooks → add checkouts/update pointing at n8n webhook URL
2. Record 90s voice sample in ElevenLabs → clone → copy voice_id
3. Twilio → WhatsApp Senders → register your business number (24-72h approval)
4. n8n credentials: add Twilio basic auth, AWS S3, ElevenLabs header auth, Shopify access token
5. Workflows → Import → paste JSON from page 4
6. Replace REPLACE_ME_VOICE_ID, REPLACE_ME_S3_BUCKET, REPLACE_ME_TWILIO_FROM in the workflow
7. Test with a cart that has phone number → verify voice note arrives → activate

COPY + PASTE
