Negative Review → AI Reply Draft

New 1-3 star review hits anywhere (Google / Trustpilot / Shopify) →
Claude drafts a brand-voice reply, posts to Slack for owner approval,
sends on click.

THE PROBLEM

Bad reviews sit unanswered for 4 days.

The data is brutal. 89% of buyers read review responses before they buy. A 1-star review with no reply costs you the next 12 buyers. But owners avoid them because writing the reply is emotionally taxing and takes 15-20 minutes per response. So they pile up. Claude can draft a non-defensive, on-brand reply in 8 seconds. You review it in 30. Reply velocity goes from 4 days to 4 hours.

Stack & setup

Tech stack

LAYER	TOOL	COST/MO
Orchestration	n8n	\$6-20
Review source	Trustpilot / Judge.me / GMB API	\$0-30
Order lookup	Shopify Admin API	\$0
LLM drafting	Claude Sonnet 4.6	\$3-8
Approval	Slack interactive button	\$0
Total	—	\$12-40

Before you import

- Review platform that exposes webhooks (Judge.me, Trustpilot, Stamped, or GMB via API polling)
- Shopify store with order data accessible (for context lookup)
- Anthropic API key
- Slack workspace + bot with chat:write + interactive components enabled
- Brand-voice doc (200 words: tone, banned phrases, how you sign off)
- n8n instance

Setup (45-75 min if review API docs are clean)

1. In your review platform, set webhook URL to n8n webhook node (Judge.me: Settings → Integrations → Webhooks)
2. Paste your brand-voice doc into the Claude prompt (node: 'Claude — draft reply')
3. Add credentials in n8n: Anthropic, Shopify (custom app token), Slack OAuth, your review platform's API
4. Workflows → Import → paste JSON from page 4
5. Replace REPLACE_ME_SLACK_CHANNEL with your reviews channel ID
6. Trigger a test webhook with a 2-star payload → verify Slack draft → click approve → confirm reply posts
7. Activate. Audit drafts daily for the first week before trusting full auto-post.
